18 CRYSTAL MESH

Crystal Mesh is a flexible metal mesh carrier with integrated loose crystals. The product is available in a wide range of colors and casings, either as a Hotfix version, which can be applied using heat, or as a No Hotfix version that can be hand- or machine-sewn. Customized solutions are possible and customers are able to choose special motifs incorporating up to nine colors. Crystal Mesh is suitable for use in a wide range of segments such as the textile and accessories segments.

 © 2012 D. Swarovski Distribution GmbH

A special motif is any individual design created by the customer, which is different from the Crystal Mesh Standard or Trend Collections. This service opens up many customization possibilities and enables you to profit from Swarovski's longtime experience and design expertise. A range of customization options for existing motives is available (see "Customization Possibilities" below). You may also submit sketches of a design that will suit your special needs – such as a brand image or an image to suit a particular sales campaign. This will then be made up according to your specifications using Computer Aided Design, which allows for easy adjustments according to your needs.

Customization Possibilities <<<

· Change of size of an existing motif
· Logos or brand names
· Creation of single motifs or rows
· Up to nine colors are possible per Crystal Mesh Motif. Due to the new stone, even for a Crystal Mesh XL Motif up to nine colors can be used in one design.

Ordering Process <<<

Send the request with a drawing you wish to order to your nearest Swarovski sales office. Make sure you include all measurements to the desired motif. Please also indicate which product group your special motif refers to (Crystal Mesh Standard, Crystal Aerial Mesh etc.). You will then receive a quotation including your article number, minimum order quantity, price, and the line drawing of your special motif in PDF format. Please contact your Swarovski sales office again, if any changes need to be made. Your special motif will be produced and delivered following your confirmation.

Please Note <<<

Please always submit your drawing of the desired motif to represent it in the actual size you require. A small sketch, when enlarged to the desired size, will have blurred lines that will make it difficult to correctly reinterpret. Pictures or drawings representing 100% size of the design or very good quality scans in JPG, BMP or DXF format will ensure that we have clear data to work with. These can also be sent via email or on a CD-ROM. If sending a sewing pattern, please include the whole pattern and not just cut outs. When the sketch is submitted as a hard copy by fax or e-mail, please include a scale legend (e.g. copy/scan with ruler next to the drawing). This will ensure that the desired size of the motif can be identified.

Special productions are generally offered to all our customers if feasibility is given and our General Terms and Conditions are applied. Please note that the simple order of a design does not grant exclusive production of this design to the customer.
