

09 FLAT BACKS HOTFIX

Flat Backs Hotfix are loose crystal elements with a flat reverse side that has been pre-coated with a heat-sensitive glue. These Flat Backs can be easily applied to a large range of textile carrier materials using heat to produce a durable and long-lasting crystal effect. Flat Backs Hotfix are available in a multitude of colors, shapes, and cuts, the most important single item being the XILION Rose 2038. The increased light reflection and warmer appearance of the XILION Rose are achieved through a unique new silver mirror on the reverse side, while the stone's optimized geometry enhances the brilliance and intensifies the color.
